

script2.js

```
1 function asyncFunc() {
2     return new Promise((resolve, reject) => {
3         setTimeout(() => {
4             console.log("some data1");
5             resolve("success");
6         }, 4000);
7     });
8 }
9
10 console.log("fetching data1....");
11 let p1 = asyncFunc();
12 p1.then((res) => {
13     console.log(res);
14 })
15
```
